- ❖ Answer every question.
 - ❖ Go through the entire test quickly, skip those you don't know.
 - ❖ If you can eliminate two answers, guess, you will be right 50% of the time.
 - ❖ Open book test, you cannot write in the book!
 - ❖ If you fail, re-take the test soon.
 - ❖ ICC works hard to insure that there will not be more correct answers under a, b, c, or d than the others.
- 

- ▶ Read every question carefully. While these tests are not very difficult, you have to read the question carefully to get the right answer.
 - ▶ Beware of the words EXCEPT and NOT. These are always printed in all capitals and they indicate that all of the answers are right except...
 - ▶ Some answers are correct except for the details. As in, an overflow device that functions at 97% of the capacity of the tank, when they are supposed to function at 95%.
 - ▶ Highlighting of section headings in the book is acceptable. So is dog-earing some of the pages.
 - ▶ The test center will not let you take a book with sticky notes into the test.
- 

- ▶ You must have two forms of ID, to get into a test center. At least one must have a photograph.
 - ▶ Resident aliens will be required to have proof that they are legally in the US before they will be allowed to take the test.
 - ▶ You are not allowed to take cell phones, calculators, etc. into the test with you. Pearson Vue provides lockers for these items.
- 

WHICH TEST TO TAKE?

- ▶ Wyoming State Specific Test W-5 (Part 17) (This test gets you a Class A and B Operator License.)
 - Chapter 17, Wyoming Water Quality Regulations
 - Covers W.S. 35-11-14 (Storage Tank Act)
- ▶ National Test UB Exam (This test only gets you a Class B Operator License for underground storage tanks.)
 - Federal Rules in 40 CFR
 - Federal Guidance Documents
- ▶ The Wyoming AST Test W-5 (Part 17) (This test only gets you a Class B Operator License for aboveground storage tanks.)
