

**DEQ PUBLIC MEETING
PUBLIC PARTICIPATION PLAN
CROSBY WELL 25-3 WELL BLOWOUT**

On Tuesday, July 10, 2007, the Wyoming Department of Environmental Quality (DEQ) will hold a public meeting to discuss the draft Public Participation Plan (PPP) for the Crosby Well 25-3 Blowout (site). The site was accepted into the DEQ Voluntary Remediation Program (VRP) on February 27, 2007. The Volunteer is Windsor Energy Group, LLC (Windsor).

Wyoming Statute (§35-11-1604) requires sites which enter the VRP to conduct specific public notice requirements. This process provides the public the opportunity to request a PPP. The public comment period ended on May 25, 2007. The DEQ received significant comments from the public requesting that Windsor develop a PPP for the site. The DEQ has requested that Windsor develop and implement a PPP for the site.

A draft PPP will be available to the public during the first week of July 2007. The meeting will be held to receive comments from the public on the draft PPP. Also at the meeting, the DEQ will accept any comments on the draft work plan for additional investigation at the site. The draft work plan for additional investigation will also be available to the public during the first week of July 2007.

The meeting will be moderated by the DEQ. Representatives for Windsor will be at the meeting.

The meeting will begin at 7:00 pm at the Clark Pioneer Recreation Center in Clark, Wyoming. If you have any questions or comments, please contact Kathy Brown with the DEQ at 307-335-6949.
