

## Wyoming Pollutant Discharge Elimination System (WYPDES)

Department of Environmental Quality  
Application for Permit to Discharge Wastewater for:

### *Notice of Intent for Temporary Discharges*

New: 06-22-2008

The general permit for temporary discharges currently authorizes the discharge of wastewater to surface waters of the state associated with:

- Hydrostatic testing of pipes
- Tanks or other similar vessels
- Disinfection of potable water lines
- Pump tests of water wells
- Construction dewatering
- Treatment of gasoline or diesel contaminated ground water (LAUST Sites)
- Discharge of wastewater from swimming pool

The water discharge from any of these activities must be relatively uncontaminated and must not have the potential to contribute non-conventional or toxic pollutant loadings to the receiving stream. Generally, no trans-basin transfer of surface water will be allowed, in order to prevent spreading of whirling disease spores, non-native species and other nuisance aquatic life organisms. Discharges must be of short duration, lasting no longer than one year, except for discharges from the treatment of gasoline or diesel contaminated ground or surface water from leaking above/ground/underground storage tank (LAUST) remediation activities.

For more details such as effluent limits and monitoring requirements, please read and review the General Permit for Temporary Discharge found on-line at [http://deq.state.wy.us/wqd/WYPDES\\_Permitting/index.asp](http://deq.state.wy.us/wqd/WYPDES_Permitting/index.asp)

#### **Mail or hand deliver the application to:**

WYPDES Permits Section  
Department of Environmental Quality/WQD  
122 West 25th Street, Herschler Building, 4W  
Cheyenne, WY 82002

*(An original signature of the applicant is required. Faxes cannot be accepted)*

**When to file:** The Notice of Intent (NOI) must be submitted at least 30 days prior to the first anticipated date of discharge.

**Fees:** Permits issued under the WDEQ (Wyoming Department of Environmental Quality) program are subject to an annual \$100 permit fee as long as the permit is active. The annual billing cycle is based on the calendar year. There is no need to pay the fee with the application. All permit fees are invoiced after January 1<sup>st</sup> of each year.

#### **General Application Instructions:**

1. Please provide as much information as possible on the application form. Additional spaces may be inserted in the application form to accommodate additional information. Please keep attachments to a minimum.
2. Please provide a response to ALL items, even if it is to indicate that the item is "not applicable". Leaving items blank may result in the application being returned as incomplete.
3. Do not staple or bind any of the permit application materials. Only binder clips or paper clips should be used to separate or bind materials.
4. Provide a map of the area of activity including the location of the discharge point, direction of the discharge flow, location of any treatment units, and location of all receiving waters.
5. Please provide an email address when possible. Once a temporary discharge permit is issued, a copy may be emailed which may expedite the permit.

## Wyoming Pollutant Discharge Elimination System (WYPDES)

Department of Environmental Quality  
 Application for Permit to Discharge Wastewater for:

### *Notice of Intent for Temporary Discharge*

New: 06-22-2008

- ✓ Please print or type. Submission of illegible materials will result in return of the application to the applicant.
- ✓ All items must be completed accurately and in their entirety or the application will be deemed incomplete and the processing will be delayed or application returned.
- ✓ An original signature of the applicant is required. Faxes cannot be accepted.
- ✓ **Fees:** Permits issued under the WDEQ (Wyoming Department of Environmental Quality) program are subject to an annual \$100 permit fee as long as the permit is active. The annual billing cycle is based on the calendar year. There is no need to pay the fee with the application. All permit fees are invoiced after January 1<sup>st</sup> of each year.
- ✓ The Notice of Intent (NOI) must be submitted at least 30 days prior to the first anticipated date of discharge.

1. Check the box (es) corresponding to the type of application being applied for:

- Disinfection of potable water lines
- Pump testing of water wells
- Construction dewatering
- Hydrostatic testing of pipes, tanks or other similar vessels
- Discharge of wastewater from swimming pools
- Treatment of gasoline or diesel contaminated ground water (LAUST sites only)

2. **Contact Information:** The permittee is the company, organization or individual that has day-to-day supervision and control of activities occurring at the discharge site and which will be the permit holder.

<i>Permittee Contact Name:</i>	<i>If applicable, Consultant Contact Name:</i>
<i>Company Name:</i>	<i>Company Name:</i>
<i>Mailing Address:</i>	<i>Mailing Address:</i>
<i>City, State, and Zip Code:</i>	<i>City, State, and Zip Code:</i>
<i>Telephone Number:</i>	<i>Telephone Number:</i>
<i>Fax number:</i>	<i>Fax number:</i>
<i>E-Mail Address:</i>	<i>E-Mail Address:</i>

**3. Project information:**

<i>Project Name:</i>
<i>Street Address (if applicable):</i>

**4. Outfall location** (Additional spaces may be added as necessary):

Outfall(s)	Quarter/Quarter	Section	Township	Range	Latitude in NAD 83 decimal degrees accurate to a minimum of 5 decimal places (if available)	Longitude in NAD 83 decimal degrees accurate to a minimum of 5 decimal places (if available)	County
001							
002							
003							

**5. Project description:**

<i>Briefly describe the project:</i>	
<i>Date when project is planned to start (MM/DD/YR):</i>	<i>Date when project is planned to end (MM/DD/YR):</i>
<i>Duration of discharge (days):</i>	

**6. Discharge information:**

<i>Source of water which is to be discharged:</i>
<i>Average and Maximum flow rate of discharge(million gallons/day):</i>
<i>Total expected volume of the discharge (gallons):</i>
<i>Description of the type of water treatment process to be employed (e.g. recycling, reuse, and detention)</i>
<i>Is the discharged water chlorinated?</i> <input type="checkbox"/> Yes <input type="checkbox"/> No
<i>If yes, how will the total residual chlorine be reduced or eliminated?</i>
<i>Provide a list of all potential pollutants and the expected concentrations in the wastewater to be discharged:</i>
<i>Is the project area located near or by any contaminated sites?</i> <input type="checkbox"/> Yes <input type="checkbox"/> No
<i>Check the State of Wyoming’s Solid and Hazardous Waste Division website (<a href="http://deq.state.wy.us/shwd/">http://deq.state.wy.us/shwd/</a>) including the storage tank program for resolved and unresolved contaminated sites.</i>
<i>Describe the control measures that will be implemented to prevent significant damage to or erosion of the receiving water channel at the point of discharge:</i>

**7. Receiving water:**

*Names of the nearest defined drainage(s) which could receive the temporary discharge:*

*Distance from project site (miles):*

*Will project water be discharged to a storm sewer system, ditch, or other man-made conveyance?*

Yes       No

*If yes, approval from the owner of the system must be obtained. Please attach a statement from the owner granting approval.*

**8. Attachments:**

*For all projects: Attach a site map and schematic diagram that shows the location of the discharge point, direction of discharge flow, location of any treatment units, and the location of all receiving waters.*

**9. Other information:**

*Any optional information the permittee wishes to have considered:*

**10. For hydrostatic testing only:**

*Type of vessel being tested:*

*Type of material from which the vessel is constructed:*

*Has the vessel been previously used?*       Yes       No

*If yes, provide a description of fluid material normally contained and/or transported through the vessel:*

*Source of water:*

**11. For LAUST Remediation Projects only:**

*Provide a detailed description of the type of remediation system:*

*List the sources of contamination:*
