The Wyoming Environmental Quality Act, W.S. 35-11-101 and Wyoming Environmental Quality Act, Article 3, W.S. 35-11-301 mandates that permits are required for construction or modification of public water supplies, wastewater facilities, land application systems, and confined swine feeding operations. W.S. 18-5-306 requires review of the safety and adequacy of proposed sewage systems and water systems in new subdivisions by DEQ.

All Wyoming Water Quality Rules and Regulations are available at <http://deq.state.wy.us/wqd/WQDrules/index.asp>

Specific chapters of the Wyoming Water Quality Rules and Regulations have been developed for each area that requires a permit. The regulatory chapters for types of projects that this application is to be used for are listed below. Please check all that apply to your project.

	11	Design and construction standards for sewerage systems, treatment works, disposal system of other facilities capable of causing or contributing to pollution, includes monitoring wells and road application of wastewater
	12	Design and construction standards for public water supplies, includes subdivision water supplies and water line extensions
	21	Standards for the Reuse of Treated Wastewater
	23	Minimum Standards for Subdivision Applications
	25	Design and construction standards for small wastewater systems includes septic tanks/leachfields
	26	Well construction standards
	other	Describe briefly
