Use this form to terminate coverage under either the general industrial (WYR00-0000) or general mineral mining (WYR32-0000) storm water permit. Do **not** use this form to transfer permit coverage to another operator.

1. Name, address, and telephone number of the company, individual, or organization which received authorization to discharge storm water under the industrial or mineral mining general permit:

Operator name: _____

Mailing address: _____

Telephone: _____ Fax: _____

2. Authorization number assigned to this project: WYR _____

3. Project name and address or legal description of the location of the facility for which the original notice of intent (NOI) was filed:

Quarter/quarter: _____ Section: _____ Township: _____ Range: _____ County: _____

4. Describe the reason(s) for requesting termination coverage. Have operations at this facility changed so that the facility no longer requires a permit to discharge storm water associated with industrial activity? Has the facility been sold to another organization or individual that does not conduct a regulated activity? *Note: If you are intending to transfer your permit authorization to another party, please use the Notice of Transfer and Acceptance (NOTA) available from the Department of Environmental Quality at 307-777-7781 or on the internet at <http://deq.state.wy.us>.*

5. Certification:

- I certify under penalty of law that no storm water discharges associated with industrial activity (including mineral mining activity) remain at the facility described above. (Storm water discharges associated with industrial activity are defined in the general permits.) Or,
- Industrial permit coverage only.* Storm water discharges from an oil and gas exploration, production, processing, treatment or transmission facility that required coverage under the industrial general permit pursuant to Part 1.3.8 of the permit now meet the conditions for termination of coverage found in Part 5.1.3.

I understand that by submitting this notice I am terminating coverage under Wyoming's Industrial General Permit or Mineral Mining General Permit. I also understand that if, at a later date, it is determined that the site did not, in fact, meet the conditions for termination in Part 5 of either permit, I may be liable for discharging pollutants without a permit.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete.
